

(Information below provided by Children's Healthcare of Atlanta)

In order to reduce the spread of viruses and contagious illnesses among our students, please consider and follow these recommendations:

- 1. If you are contacted by the school to pick up your sick child, please make every effort to do so promptly.**
- 2. Please keep your contact phone numbers current in the front office, with your child's teacher, and with the school nurse.**
- 3. If your child is sent home with an illness that has been prevalent in the school, please allow him or her to remain at home until the illness has passed (example: if your child has been sent home for vomiting, do not allow him or her to come back to school until the vomiting has stopped and he or she is able to tolerate a soft diet, not just clear liquids).**

We make every effort to promote hand-washing and good hygiene in the school to prevent the spread of illnesses. We appreciate your efforts and consideration to protect the health of your children and other children with whom they come in contact.
